Your Journey Roadmap

Path 1 of ~4 estimated

Progress toward target role

5 of 17 gap-levels

29% after this path

This Path Covers (5 skills, +1 level each)

SK.FND.001 LLM fundamentals (tokens, co...
AI Literacy & Foundations
L1 → L2 (of L2)

SK.PRM.021 Grounding & citations
Prompting & HITL Workflows
L1 → L2 (of L3) +1

SK.PRM.003 Prompt debugging & iteration
Prompting & HITL Workflows
L2 → L3 (of L3)

SK.CTIC.006 Recognizing AI-generated co...
Critical Thinking & Info Eval
L1 → L2 (of L2)

SK.CTIC.004 Understanding bias in content
Critical Thinking & Info Eval
L1 → L2 (of L2)

Remaining (4 entries, 8 gap-levels)

SK.PRM.021 Grounding & citations — L2 → L3 (1 more)

SK.COM.005 Cross-functional AI collaboration — L0 → L3 (+3)

SK.COM.006 AI documentation best practices — L0 → L3 (+3)

Show all 4 remaining skills (+1 more)

Each path builds solid +1 level foundations. Complete this path, then generate your next one to keep progressing.

High Level Learning Objectives

1 Phase 1: AI Literacy & Foundations

1 chapter · ~4h

1 Understanding LLM Fundamentals

L1 → L2 4h

You	L1
Target	L2

LEARNING OBJECTIVES

- Identify the basic components of large language models, including tokens and context.
- Describe how predictions are generated by LLMs.
- Explain the significance of context in AI-driven content creation.

In corporate communications, understanding the fundamentals of AI tools like LLMs is crucial for creating content that resonates with diverse audiences. By leveraging these technologies, professionals can enhance the clarity and impact of their messaging, ensuring that complex topics...

2 Phase 2: Prompting & HITL Workflows

2 chapters · ~9h

2 Grounding AI Outputs with Reliable Sources

L1 → L2 4h

You	L1
Target	L2

LEARNING OBJECTIVES

- Explain the importance of grounding AI-generated content with citations.
- Identify reliable sources for grounding AI outputs.

- Implement citation techniques in AI-generated content.

In corporate communications, the ability to ground content with reliable sources is crucial. It ensures that the information shared is accurate and trustworthy, which is essential for maintaining the organization's credibility and reputation. AI tools can assist in efficiently identifying and...

3 Mastering Prompt Debugging and Iteration

L2 → L3 5h

You	L2
Target	L3

LEARNING OBJECTIVES

- Analyze the effectiveness of AI prompts in generating desired outputs.
- Design iterative improvements to enhance prompt performance.
- Evaluate the impact of prompt modifications on content quality.

In corporate communications, the ability to refine and iterate on AI prompts is vital for producing high-quality content. This skill ensures that AI-generated outputs align with organizational standards and effectively convey the intended message. By mastering prompt debugging and...

3 Phase 3: Critical Thinking & Info Eval

2 chapters · ~9h

4 Identifying AI-Generated Content

L1 → L2 4h

You	L1
Target	L2

LEARNING OBJECTIVES

- Identify characteristics of AI-generated text.
- Explain the differences between human and AI-generated content.
- Apply techniques to verify the authenticity of content.

+1 more

In corporate communications, maintaining the authenticity and integrity of content is paramount. As AI tools become more prevalent, professionals must be adept at recognizing AI-generated content to ensure that messaging remains clear and trustworthy.

5 Addressing Bias in AI-Generated Content

L1 → L2 5h

You	L1
Target	L2

LEARNING OBJECTIVES

- Identify common biases in AI-generated content.
- Explain the impact of bias on communication effectiveness.
- Analyze content for potential biases.

+1 more

In the field of corporate communications, ensuring that all content is free from bias is essential for maintaining a company's reputation and fostering an inclusive environment. As AI tools become more integrated into content creation processes, professionals must be vigilant in...

Your Current Level Target Level Required

Recommended Next Steps

- Start with foundational skills like LLM fundamentals (tokens, context, prediction) and Grounding & citations to build core understanding before tackling advanced topics.
- Your path focuses on progressing from Aware to User proficiency across 5 chapters. Complete them in order for best results.
- Your path covers 3 skill domains: AI Literacy & Foundations, Prompting & HITL Workflows, Critical Thinking & Info Eval. This breadth ensures a well-rounded AI skill set for your target role.
