Your Learning Journey

Dear Jennifer,

Embarking on the journey from a Communications Consultant to an AI Content Editor is an exciting transition that leverages your extensive experience in corporate communications. Your ability to distill complex topics into clear, engaging messages is a crucial skill that will serve you well in the realm of AI content editing. With a fit score of 32%, you are already on a promising path towards your target role. This score reflects your foundational understanding of AI through your advisory work on AI governance and inclusive communications, providing a solid base to build upon.

The learning path we have crafted for you is designed to bridge the gap in the eight key skills necessary for your new role. These skills are essential to mastering the nuances of AI content editing, and our structured program will guide you through five comprehensive chapters. Each chapter, spanning foundational to critical technical insights, is tailored to enhance your proficiency and confidence in AI applications within corporate communications.

Your dedication to professional growth and adaptability is commendable, and this learning path is a testament to your commitment to advancing your career. As you progress through these chapters, you will not only acquire new skills but also refine your existing expertise, positioning you as a leader in the evolving landscape of AI content. Embrace this opportunity with enthusiasm, knowing that each step brings you closer to achieving your career aspirations. We are confident that with your determination and the support of this learning path, you will excel as an AI Content Editor and continue to make a significant impact in your field.

- [ ] #3 Recognizing AI-generated content Critical Thinking & Info Eval
- [ ] #8 IP/copyright awareness AI Literacy & Foundations

5/5 selected

Rate Your Current Proficiency

For each skill, select the level that best describes your current ability. Hover over each level for a description.

Capabilities vs limitations (hallucinations)

AI Literacy & Foundations | Critical

Target **Level 2**

Understanding AI limitations is crucial for ensuring content accuracy. The learner's background in AI governance provides some foundation, but technical understanding of AI's capabilities and limitations is a gap.

0 Unaware | 1 Aware | 2 User | 3 Practitioner | 4 Builder

Your level: 2 — User (Meets target)

Prompt debugging & iteration

Prompting & HITL Workflows

Target **Level 3**

While the learner has experience with AI tools, they lack technical skills in prompt debugging and iteration, which are essential for refining content generation algorithms.

0 Unaware | 1 Aware | 2 User | 3 Practitioner | 4 Builder

Your level: 2 — User (Gap: 1 level)

Eval types (offline/online/red team)

Evaluation & Observability

Target **Level 2**

The learner's experience in data analysis is limited, making this skill important for evaluating content performance and effectiveness, which is a key part of the role.

0 Unaware | 1 Aware | 2 User | 3 Practitioner | 4 Builder

Your level: 1 — Aware (Gap: 1 level)

AI-generated content disclosure

Governance & Compliance

Target
Level 2

The learner has some exposure to AI governance, but understanding disclosure requirements for AI-generated content is a new area that aligns with their interest in ethical AI implementation.

0 Unaware | 1 Aware | 2 User | 3 Practitioner | 4 Builder

Your level: 2 — User (Meets target)

Draft -> critique -> revise

Prompting & HITL Workflows | Critical

Target
Level 3

The JD emphasizes 'editing and optimizing content' and 'developing new content ideas', which requires iterative refinement of AI-generated content.

0 Unaware | 1 Aware | 2 User | 3 Practitioner | 4 Builder

Your level: 2 — User (Gap: 1 level)
