High Level Learning Objectives

1 Phase 1: Prompting & HITL Workflows

2 chapters · ~8h

1 Mastering Grounding and Citations in AI-Generated Content

L2 → L3 4h

You	L2
Target	L3

LEARNING OBJECTIVES

- Identify the importance of grounding in AI-generated content.
- Explain how to incorporate citations effectively in AI outputs.
- Describe methods to verify the accuracy of AI-generated information.

In corporate communications, ensuring that all content is accurate and credible is crucial. Grounding and citations are essential practices that help maintain the integrity of the information being communicated. A...

2 Iterative Drafting and Revising with AI

L2 → L3 4h

You	L2
Target	L3

LEARNING OBJECTIVES

- Explain the iterative process of drafting and revising content.
- Apply AI tools to enhance the drafting process.
- Critique AI-generated drafts for improvements.

+1 more

In corporate communications, the ability to produce clear, coherent, and impactful content is vital. The iterative process of drafting, critiquing, and revising ensures that all communications are polished and...

2 Phase 2: Governance & Compliance

1 chapter · ~5h

3 Ethical Disclosure of AI-Generated Content

L1 → L2 5h

You	L1
Target	L2

LEARNING OBJECTIVES

- Analyze the ethical implications of AI-generated content.
- Design strategies for transparent disclosure of AI involvement.
- Evaluate the impact of disclosure on audience trust.

In the realm of corporate communications, transparency and trust are foundational. As AI tools become more integrated into content creation, disclosing AI involvement is not just a legal requirement but an...

3 Phase 3: Communication & Collaboration

1 chapter · ~4h

4 Leveraging AI for Cross-Functional Collaboration

L2 → L3 4h

You	L2
Target	L3

LEARNING OBJECTIVES

- Analyze the role of AI in enhancing cross-functional communication.
- Design AI-driven strategies to improve collaboration between departments.
- Evaluate the effectiveness of AI tools in streamlining communication processes.

+1 more

In corporate communications, the ability to facilitate seamless interaction between departments is crucial. AI tools can automate routine tasks, provide insights into communication patterns, and enhance the overa...

Your Current Level Target Level Required

Recommended Next Steps

- Start with foundational skills like AI-generated content disclosure to build core understanding before tackling advanced topics.
- Your path focuses on progressing from User to Practitioner proficiency across 4 chapters. Complete them in order for best results.
- Your path covers 3 skill domains: Prompting & HITL Workflows, Governance & Compliance, Communication & Collaboration. This breadth ensures a well-rounded AI skill set for your target role.
